

Dear Creative Educator,

Fibre-Craft[®] is a leader in the creative activities industry, with a special emphasis on kids' arts and crafts projects. We host a Creative Hands[®] Kids Day once every month primarily for kids ages 4 to 8 years old.

Creative Hands[®] Kids Day is:

- **EDUCATIONAL** — Kids learn how a craft product is created, from design conception to factory production and from product testing to consumer retailing!
- **CREATIVE DEVELOPMENT** — Kids develop their creative imaginations when they make a craft project that they pick out individually!
- **POSITIVE REINFORCEMENT** — Encouraging kids to participate in art gives them a sense of accomplishment!

Each Creative Hands[®] Kids Day session lasts approximately three hours and is entertaining, informative and, most of all, *creative!* Children and educators alike can look forward to all sorts of exciting craft activities! This can be a field trip or an after-school educative and fun event!

We are currently booking sessions throughout the year. If you are interested in participating or receiving more information, please contact:
